Majors: Computer Science
Information System
- Graduated Cum Laude with the degree overall average : **81.55%**

Software

- Motivation: I found myself in need of folder locker software to protect some contents in my external hard drive when someone borrows it, I searched online I found no [free] software of a kind. Then I thought I made my own.
- Principles/skills used in the development:
 - MVVM
 - MVC
 - C#
 - XAML (UX design)
 - Object-Oriented Programming
 - Databases SQL
